

ADDENDUM

900 MHz Wireless Stereo Headphones

Cat. No. 33-1186

Connecting to an Audio Source

The callout to **AC Jack** in the illustration on page 3 should read **DC 12V**.

If you are using your audio source's stereo headphone jack, connect the patch cord's white and red plugs to the white and red phono jacks on the supplied adapter.

- If your audio source has a 1/8-inch headphone jack, insert the adapter's 1/8-inch stereo plug into the audio source's headphone jack.
- If your audio source has a 1/4-inch headphone jack, insert the adapter's 1/8-inch stereo plug into the back of the supplied 1/8-to-1/4-inch stereo adapter. Then insert the adapter into the audio source's headphone jack.
